

Summary

I am a recent graduate of Electronic and Electrical engineering with productive work experience in writing software, setting up and managing IT Infrastructures. A detail-oriented and hardworking personnel with remarkable, analytical and logical skills, expert in performing complex operations, reporting skills using statistical methods. Able to maintain quality/standards and leverage technology to provide solutions to customers/staffs. Result driven, Innovative and Willing to Learn.

Employment History

CyberSecurity Research Lab, Ife, Osun

Software Intern, September 2019 - Present

- learnt Web programming
- Build a Database Documentation for the Lab.
- Learnt C programming

Department of Electronic and Electrical Engineering,

OAU, Ife, Osun

Tutor, Lab Assistant, May 2018 - March 2019

- Supervised third year students practical classes
- Assisted the professor in charge with grading.

Department of Electronic and Electrical Engineering,

OAU, Ife, Osun

Research assistant, March 2016 - April 2016

- Researched on setting up a Remote lab management system Using WebLab Deusto
- Designed a ball and beam system using arduino C and matlab for simulation towards integration with weblab deusto

Education

Obafemi Awolowo University, Ife, Osun

Bachelor's of Science, Graduated March 2019

B.Sc Electronic and Electrical Engineering. | Obafemi Awolowo University, Osun State | 2019

- Second Class Upper Honors.

School Projects:

- Designed and Implemented an unmanned Aerial Robot.
- Data Acquisition from the motor cortex of human brain.
- water operated switch.

Obafemi Awolowo University International School Ile-Ife

O'Level, Graduated May 2012

Experience and Projects

- Managed a team of three to build electronic devices.
- Designed a modified LEACH system using C programming language.
- Worked on simulation of Network Calculus using Rtc Toolbox(Matlab).
- Provided technical assistance for a CBT exam.
- Worked as a backend developer for an official website.
- Built a Web Api integrated to a project called Smart Irrigation System

Professional Skills

C/C++ programming

PHP/MySQL

Matlab

Javascript

Git,Github

Python
